Dr. William Kelly
Superintendent Of Schools

January 7, 1971

TO THE MEMBERS OF THE CLASS OF 1971

As you come to the conclusion of your years in Saugus High School I wish to add my congratulations to those which you have already received.

In addition to acquiring an education you have developed friendships with teachers and students and I hope that these have contributed to your education. I also hope that these friendships will endure and that your association with Saugus High School has resulted in pleasant memories.

As you go on to use your education in a job or in college, I believe that you will have many occasions to recall your high school days. I hope that you will remember the good things and that your education here will prove to have been a rewarding as well as successful experience.

Please accept my best wishes for success and happiness in the future.

Very truly yours,

William E. Kelly

DR. WILLIAM E. KELLY
SUPERINTENDENT OF SCHOOLS

WEK:r

Robert J. Fraser
Principal

To the Class of 1971:

I have a special interest in the class of 1971 because you were sophomores when I became Principal of the high school, and therefore the first class to have been in the school during my term as Principal.

I want to congratulate you on your graduation and hope sincerely that we have given you something that has prepared you for your future in these difficult times. Today it is necessary to have more than the standard high school education to cope with the dilemma and confrontations of the time. You must be equipped to make decisions and judgements beyond the ordinary everyday problems of life. Whether you go to work or go on to further education, you will be called upon to defend your beliefs and you must have the courage and good judgement to do this in a manner which should preclude the violent consequences which are taking place amongst some groups in our society. Do not be caught up in the contradictions of the day which seemingly are asking for a peaceful society and attempting to acquire peace through violent actions.

There are times when you feel that the "system" is not the most expedient means to this end but the system has created our many freedoms which we in the United States are able to enjoy today.

I would like to think that Saugus High School has produced thinking people who can stand up to these situations in a rational manner.

I wish you only the best in whatever your future might be. I know that you will be a credit to Saugus High School in the years to come.

Sincerely,

Robert J. Fraser

This year, the football team brought a winning record to the hometown fans. Co-captain Dan Heaney led the offense on, while co-captain Steve Nelson earned Globe all-scholastic recognition for his hard nosed play. The high point of the season came when Saugus shut out Marblehead 20-0, a game where Mike Gaudet intercepted three passes.

The 1970 basketball season was a disappointment to Saugus fans. Their record is deceptive as to the performance of the team however, as their losses were by six points or less. Peter Boucher, with a 17.8 point per game average, was one of the top scorers in the Conference. Scott Millea and John Powers stood out especially for their defensive play. John McBride and Vern Spinosa also contributed to Saugus' exciting and aggressive play.

You're about to take a giant step forward into your future. We think we can make it the bright one you want it to be at New England Telephone. With a job that's every bit as big as your ambition. You see, we need people. With all kinds of talents. And especially, people who really want to get going with their future. And want to be rewarded with automatic raises. Your High School diploma is all the experience you need. If you want a job and a future that's tailored to your talent... along with unusually generous fringe benefits, stop in and see your guidance counselor. Ask when and where you can apply for an interview with the people who want to make your future as happy as you want it to be.
